

INdAM Workshop
Inverse Problems and Applications

June 3–9, 2002 - Cortona, Italy
Friday June 7, 2002 - 12:15–13:00

ANTONINO MORASSI
Università degli Studi di Udine, Italy

Detecting inclusions with extreme conductivities

We prove upper and lower bounds on the size of an unknown cavity in an electrical conductor in terms of boundary measurements of voltage and current.
